

# Pyramides de la fluence

choisissez vos mots et phrases pour travailler la fluidité

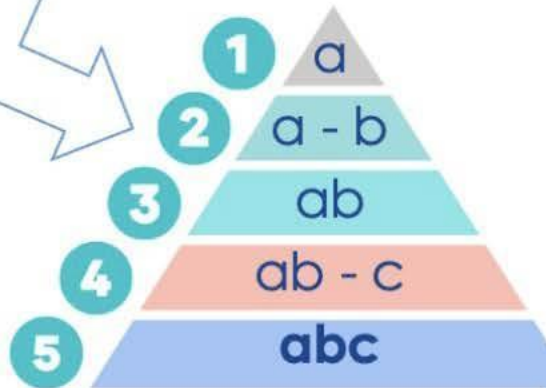

mots à 1 syllabe

Compétence ciblée: XXX

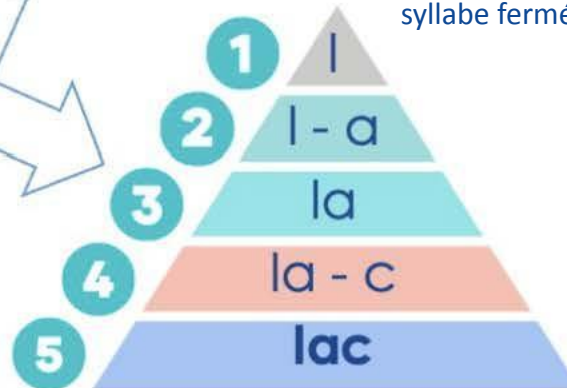

Indiquez  
la compétence  
à travailler ici.

Remplacez  
les lettres  
a, b et c

par les  
graphèmes  
du mot cible.

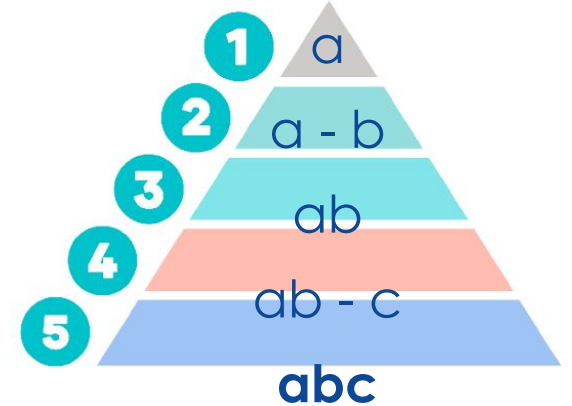

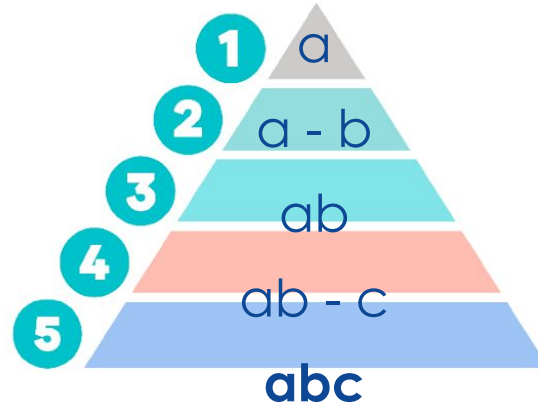

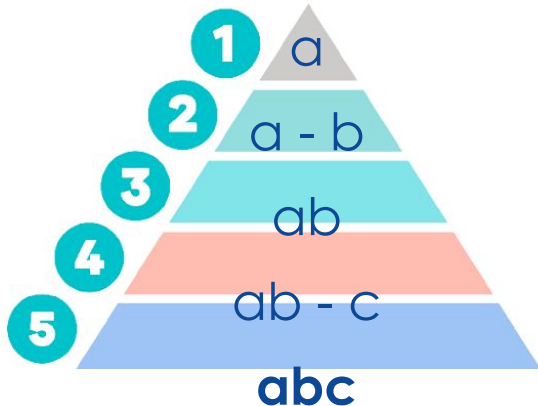

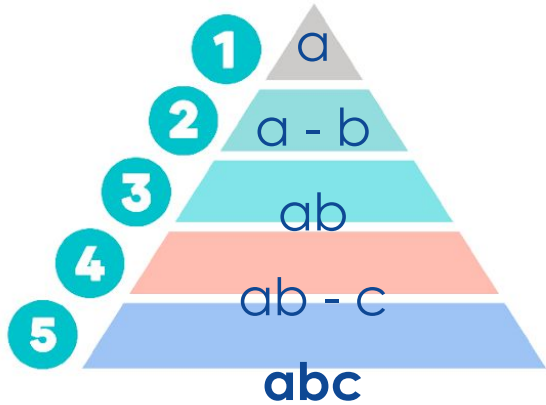

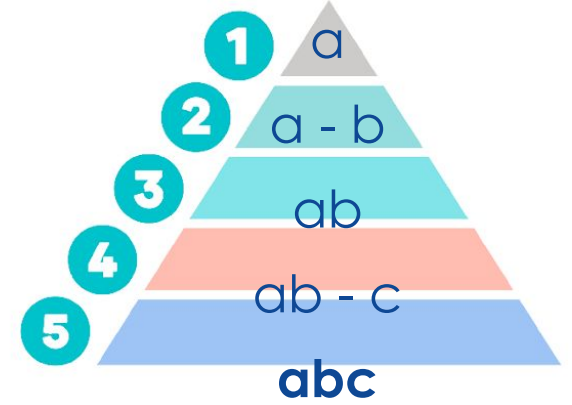

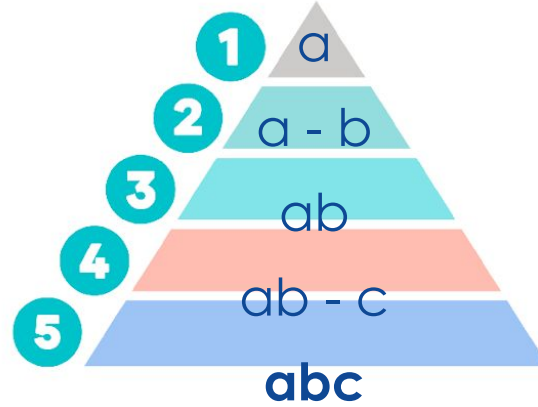

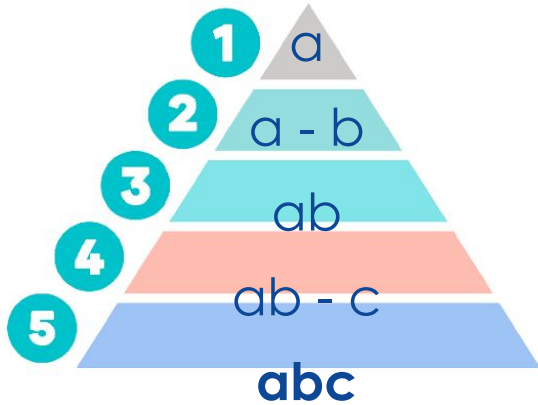

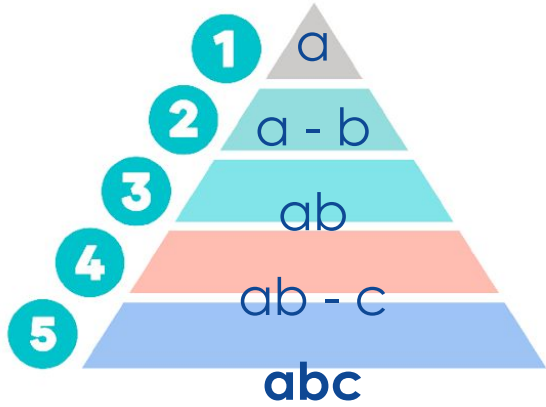

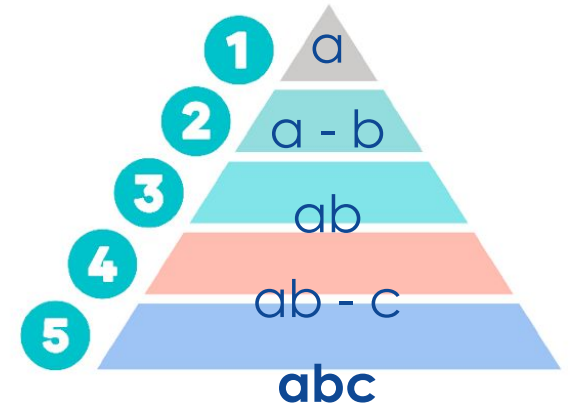

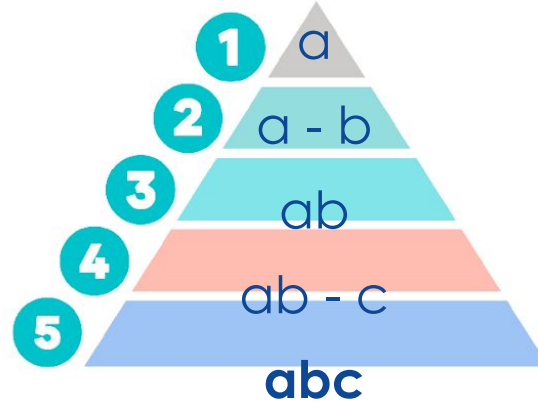

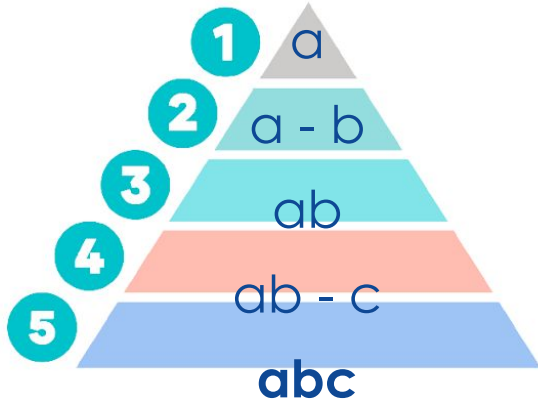

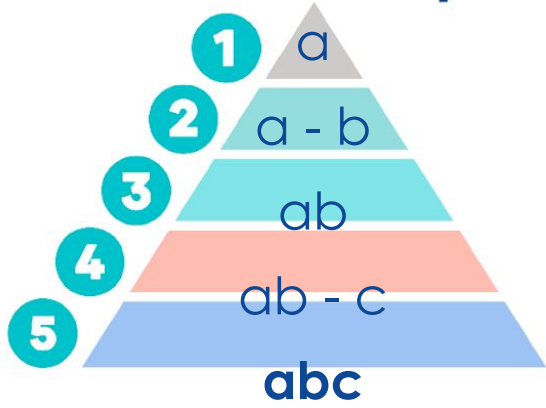

## Conseils :

- Ne changez pas les animations car l'ordre de présentation sera affecté.
- Faites des essais avant d'utiliser les pyramides de la fluence avec vos élèves.
- Privilégiez des graphèmes constants et acontextuels au début.
- Ne présentez pas des graphèmes contextuels (p. ex. « c » et « g » dur) que lorsqu'ils ont été enseignés.
- Soyez conscients du changement de prononciation du son vocalique dans une syllabe ouverte (« be ») ou fermée (« bec »).
- La voyelle sera plus tendue dans la syllabe ouverte « vi » et « bu » que dans la syllabe fermée « vis » et « bulle »).
